

# Puridin<sup>®</sup> Compacted

(Cefradine)

## Therapeutical category:

Oral broad-spectrum cephalosporin

## Characteristics:

Granules obtained by means of dry compaction of the crystalline powder without adding any excipients. No solvents are used in the process for higher purity and improved odor of the product, with the exception of acetone used for the final product wash.

## Applications:

The product is suitable for the manufacture of solid dosage forms, such as capsules after addition of appropriate excipients.

### This product is part of our PureActives<sup>®</sup> range.

All our PureActives<sup>®</sup> antibiotic products are produced using our proprietary, sustainable, and environmentally friendly enzymatic technology. They bring our brand promise to life through superior quality, outstanding reliability and leading sustainability performance.

All our manufacturing sites use the best available technology and operate dedicated waste water treatment plants, 24/7 throughout the year. Effluents are regularly sampled and checked for antimicrobial activity.
